EXPERIENCE

Devops Engineer Intern [Sep-2026] – [Current]
GenX Leadership Academy - Remote, Germany.

- Supported containerized application deployments and troubleshooting across cloud environments
- Contributed to CI/CD pipeline maintenance and infrastructure automation workflows
- Collaborated with an international DevOps team to improve development workflows
- Explored AI-assisted approaches for troubleshooting, documentation, and developer productivity.

Devops Engineer [Aug-2024] – [Aug-2025]
Supplyon AG - Hallbergmoos.

- Supported cloud-native Kubernetes infrastructure across dev and production, operating 10+ containerized apps and services
- Automated provisioning of 20+ infrastructure components and Linux system configuration
- Built and maintained 10+ CI/CD pipelines, cutting manual deployment steps and speeding up releases
- Managed cloud resources (VMs, storage, DNS, key management) across multiple environments
- Ran streaming architectures and monitoring/observability for 10+ services
- Automated GitOps-based Kubernetes deployments with TLS certificate management.

React JS Developer [Jan-2023] – [Apr-2023]
Workout for Happiness UG - Berlin.

- Developed 5+ web applications and UI components for various functional requirements
- Implemented and optimized 10+ UI components to improve usability and navigation
- Collaborated in a 3–5 person dev team on development, testing, and continuous optimization of the applications.

React JS Praktikant [Jan-2021] – [Aug-2021]
Meganos Softwares - Pakistan.

- Built and customized reusable React.js components for 5+ web applications
- Implemented 10+ features and resolved 20+ bugs, improving functionality and stability
- Collaborated in a 4–6 person team on testing, code reviews, and optimization.

EDUCATION

Master: M.Sc. in Global Software Development [Oct-2021] – [Current]
Hochschule Fulda - Fulda,Deutschland.

Main focus:: Machine Learning, Web Technologies, Big Data, Cloud Computing, Global Software Development, Modern Software Architectures, Distributed Systems & Technologies.

Bachelor: B.Sc. in Software Engineering [Sep-2017] – [Sep-2021]
University of Gujrat - Gujarat, Pakistan.

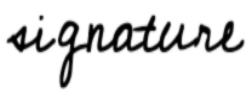

Main focus:: Object-Oriented Programming (OOP), Data Structures & Algorithms, Web Development, Cloud Computing, Software Engineering Principles, Software Design & Development, Database Systems.

KNOWLEDGE & SKILLS

Language Skills:	German(Intermediate), English(Fluent).
Frontend:	JS, TS, React, HTML5, CSS3, Tailwind, Bootstrap, Figma.
Backend:	Python, Java, Django, Spring Boot, Postman.
Database & OS:	MySQL, Linux.
cloud:	AWS, Azure (VMs, Blob Storage, DNS, Key Vault).
devops:	Terraform, Ansible, Kubernetes, Docker, Helm, ArgoCD, GitOps, Jenkins, Git.
Messaging:	Apache Kafka.
Monitoring:	Prometheus, Grafana, Loki, Jira.
Methodologies:	Agile, Scrum, Code Reviews.
Personal Skills:	Communication & Presentation Skill, Collaborative & Helpful, Problem Solving & Analytical Thinking, Innovative & Self-confident, Team Work, Resilience.

CERTIFICATIONS

- DevOps Bootcamp - Udemy (2026).
- Kubernetes (CKA Candidate) - Udemy (2026).
- HashiCorp Terraform - Udemy (2026).
